Decades Scrapbook Performance Assessment

Your job over the next week is to create a scrapbook depicting the major events of the last 60 years. You will make a scrap book with 12 pages: two pages of the scrap book will be dedicated to each decade from 1950 to 2010. For each decade you will complete each of the five activities listed below: A.) a poem (minimum of 4 lines) that reflects an event from the period, B.) an original drawing with a 3 sentence explanation representing an event from the period C.) a second original drawing with a 3 sentence explanation representing another event from the period D.) a hand-drawn map depicting an event from the period with a key, and E.) a political cartoon representing an event from the period (you may download the cartoon online). You can choose the events from the decade to include in your scrap book from the list of events included in each decade. **You will only need to use 5 out of the 6 events included in each decade.**

You must **complete one decade each day!** Most of the information that you need is in your textbook. You may also use any other textbook in the classroom. Check off each assignment, with a stamp, as they are completed. Turn in this assignment sheet with your completed scrapbook. Make your scrapbook as interesting as you can! Exercise a little creativity!!
